

2026 Hockey WA State Medical and Welfare (Minors)

Hello Families and Athletes,

This form is for state athletes under the age of 18years.

The following questions not only relate to medical but general well-being of your athlete when travelling out of State and staying together in a championship bubble. Performance is not solely skills based but viewing our athletes as a whole person, doing our very best to meet the needs of the athlete while in our care. This information is solely reviewed with this outcome. Your transparency and honesty is greatly appreciated and where the question is not applicable please answer NA. If you need to discuss any matters privately, please reach out directly to Joanna Vaauli, Performance and Pathways Lead HWA, email joanna.vaauli@hockeywa.org.au.

State level athletes of all ages are required to be informed and to always check medication and supplement restrictions prior to departure. Please ensure you have the Sports Integrity Australia APP on your mobile and you done your due diligence, not knowing is not an exemption.
